

**WEAPPLY4U**  
world's leading job application service

## A Leading Edge Job Application Service

**Helping professional job seekers find opportunities by opening new doors and connecting them directly to the right organizations**

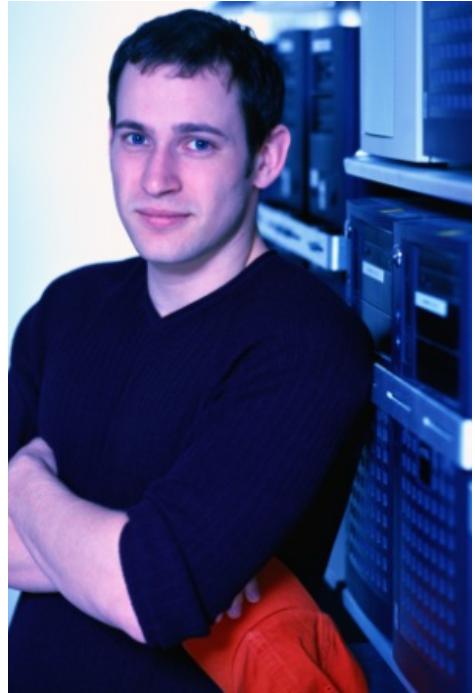

# About Us

Weapply4u was founded by a creative sales/marketing executive of a Fortune 500 company specializing in Business and Client Development. Throughout his career he had seen great individuals not being able to connect with companies. He used decades of his experience in sales and marketing and developed a process on how people could find jobs faster and get hired sooner. Companies are always looking for great talent to add to their team, they just don't always have the resources to find them.

The intention was to create a tool that allows professionals to connect with companies in their field faster in order to get them working sooner. Job Boards/Sites like Monster, Workopolis, CareerBuilder, etc. are great tools for people who have very specific experience or have at least 5-10 years of work experience. Most agencies and recruiters who also post jobs are looking for specific people with the right experience to match their client's needs. Weapply4u works for you and not a client, we help you connect with companies directly go around gate keepers.

It took this team 6 years to strategize the needs of people, the system and approach, the contacts, and hence this service. We started in 2005 and have been helping people for 9 years now.

The key to searching for that right job is understanding how to open new doors for yourself and how to get access to that "Hidden" market. It is known to all, that a large percentage (some say over 80%) of opportunities are not published. A very small proportion of companies spend money with recruiters or job boards, most rely on word of mouth, internal references and direct applications.

Our approach allows us to apply directly to direct hr emails and hiring managers for various mid-sized to large organizations on behalf of you. We apply directly to complete Job Sectors and Industries who would appreciate your experience, educational background, your goals, and passion. In essence, our goal is to open doors for job seekers who had no access to these companies in the first place. Companies are always looking even when they are not hiring. We want you to have the opportunity to connect and have a great chance at being considered.

Now with thousands of satisfied clients, Weapply4u.com has become a major source for job seekers. Investing towards finding you a job that might pay you forever worth the investment. It is a must for jobseekers.

Please note: We are not an Agency. We are a Marketing Company looking to add value to your job search. We offer our time, services and resources as a tool to get you a job faster. Hence we charge a nominal fee just for the time it takes us to apply on your behalf. We are a performance based marketing service and you only pay almost 80% of our fee only if you succeed.

## Benefits to you— The Job Seeker

Do you think marketing yourself aggressively in this economic state would be a sound decision? As a job seeker, do you think sending out 1000 or 2000 applications to companies in your industry or field of work by the end of this week will increasing your chances of getting employment? YES and we can prove it.

In this market, the challenge is to find companies who are hiring. Our goal is to get you in front and considered for those positions. Getting in front of the hiring manager first and fast is the key to opening the door to new employers.

### Question : Why Should I use your service

- **ACCESS - HIDDEN JOB MARKET** : Key to the hidden job market is to connect with individuals or companies that are hiring but do not publish their jobs. That is why we not only apply to companies that are hiring, but we also apply to companies that do not have a job posting published. Companies are always looking even when they are not hiring. Over 80% of jobs are not published but are internal hires. So when we apply a lot of times you are the only one interviewing.
- **ACCESS - MID SIZED AND SMALLER COMPANIES** : In this economy the largest employment growth sector are mid sized and smaller companies. Most large companies are downsizing or have limited hiring targets. That is why we not only apply to Large companies but mid sized and smaller companies who are more willing to hire people and train them. They pay as well allow you to professionally grow faster. Many of these mid sized companies are also divisions of larger companies. Most people do not realize that most large companies are really 100's of smaller divisions put together under one name.
- **ACCESS - INDUSTRYFOCUS™ DATABASE** : The key to our success lies around 6 years of research and networking in order to build a Superior Database of companies in each sector. These databases are continuously updated by various key team members. We now have one of the world's largest sector based. The key to getting connected is to not only focus on companies in your related field but also to adjacent industries that would appreciate your background and experience. Our goal is to open all doors and not miss out on any possible opportunities and potential employers.
- **PAYBACK** : We are NOT an Agency, but a Marketing Company. We work for you not the employer. This is why we charge you for the time it takes for us to set up and send out your applications. Our service pays for itself if it means getting you a job sooner. Your success is our success. Even if we can help you find a job just 1-2 day sooner our service registration cost pay's for itself.

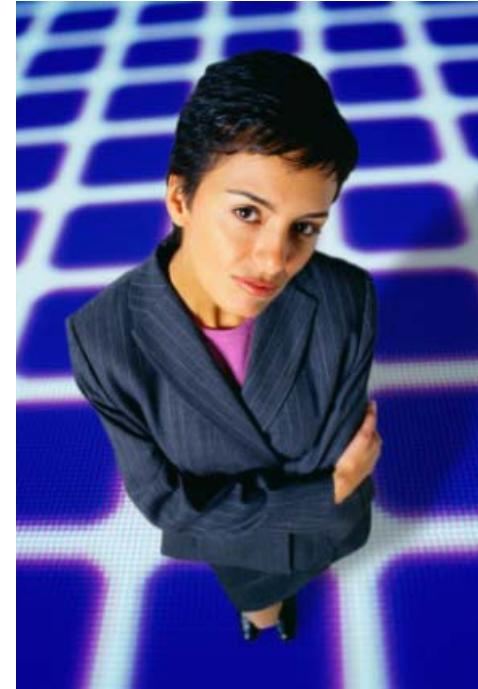

# How does it work ?

We offer a unique marketing experience where people can market themselves to 1000, 2000 or 3000 companies in their field immediately. You can select one or up to 3 different industries based on the package you select. Imagine contacting 3000 companies in 4-5 days! Assuming 15 minutes for every cover letter and resume a task like this could take you almost 6 month of full time work. (this is assuming you have the directories we have)

## How do we get started?

1. Register online at Weapply4u.com and indicate the industry and locations of interest. Please select the industry that best suits your education and experience. If you are unsure of the packages and need advice or see an industry that is not there email us at contact@weapply4u.com
2. We offer several packages for sending out your applications depending on how aggressive you are looking to get:
  - i) 1000 resumes/cover letters -You can select 1 industry
  - ii) 2000 resumes/cover letters -You can select 2 industries
  - iii) 3000 resumes/cover letters -You can select 3 industries
3. Upon completion of registration, you will get instructions on submitting your most current resume and cover letter in Word format for our team to review.
4. You will also get instructions on creating a new gmail account that we will both use. We will use that gmail account to apply for you.
5. We will then email you tips on how to improve your resume and will email you sample resumes, cover letters and instructions on how to improve your LinkedIn profile if required
6. After you submit your final resume and cover letter your password is changed for a few days while we use the joint email account to apply to the sectors you have selected.  
(Note : We use the same resume and cover letter for all applications. We only change the company name and address in the cover letter)
7. After the process is finished in 4 days we reset the password and send you a confirmation email.
8. All responses from potential employers will come directly back to you. Should they have open positions that match your skill set and experience then all communications and interviews are set up directly between you and the employer.

This is how your email looks like after the application process is finished.

## The Weapply4u.com Advantage and Our commitment to you

What we do in several days takes a person anywhere from 3 months to 6 month full time to complete. And we guarantee that if you do not get an offer you accept within 4 months we redo the process again at no cost to you. Applying to 1000 to 2000 companies, sending out applications and addressing each one accordingly is time consuming and boring. Even though it may be tough to find employers who are hiring, we go directly to the right companies and try to create a need by introducing them directly to you. We offer a unique approach to "Job Hunting" that allows you to reach your goals faster. We create a path to a great career!

- We apply for you to companies in your industry or sector focus using our IndustryFocus Database. That's over 100 industries and over 700,000 companies in North America
- We will help you develop a strategic and creative resume/cover letter to create a win-win combination for success. We even send you sample resumes should you need them. A service like this usually costs way over \$300 alone.
- Save time, save money, create opportunity, open new doors and get that job...That's the advantage.
- DID YOU KNOW : It costs you \$ 133 everyday you are not working. Our service pay's for itself in ONE day if we can find you a job. In 20 years that job will net you over 1 million dollars. We also guarantee that if we cannot get you an offer within 120 days we will redo the process free.
- Once again, we are not an agency...we won't forget about you. We work hard for you and fast. Typically agencies work with 5-10% of companies in your industry or field of work. We offer you access to 100% of those employers.

We're here to help you reach your goals for success by connecting you with potential employers fast. This is the first step of your career, so why take a chance and wait.

### Helping you connect with employers

*"An average job search may take 4 to 6 months in this market. If we can get you a job just one day sooner by marketing you, then the service pay's for itself in one day. The real value is that it opens doors to hundreds of new opportunities that you may have never had access to "*

## Testimonials

NOTE: No one was paid to make these comments. The results vary from person to person. Even though we help a lot of people few of them were kind enough to put their name and face and recommend us. We respect our clients privacy and only put information on if they have recommended us on open forums so you can validate it. Before you read these please understand that we are just an application service. We do not guarantee you a job, we just apply for you to the right places right away. Something that may take you 4-6 months to do full time we do in 3-4 days.

.....Weapply4u.com has a great access to the hidden job market, which sometimes makes you the only candidate for the job. That's really refreshing knowing the fact that for one job opening, companies usually get an average of 500 resumes. The concept definitely worked for me. [Katerina A., <-- LinkedIn Profile](#)

"Great service. Had just graduated and wanted to get a break. Used the Corporate package and got a job as a loss prevention analyst. Weapply4u has a great database. I have recommended about 10 friends to the service. Anuj Tickoo

"Weapply4u provided a service that was well thought out, showed he had lots of knowledge and provided greater results than expected." - [Barbara G., <-- LinkedIn Profile](#)

A lot my friends had used this service with great success. Could not find work in my field. After Weapply4u sent my applications I was surprised that I not only got several interviews but had several offers. Weapply4 changed my life. [John Piroli](#)

"I highly recommend Weapply4u.com. I can name at least 10 people I know that have found jobs through this service. Their service always produces fast results. If you need a job or a career change, call these guys." [Raymond, <-- LinkedIn Profile](#)

" As a professional that had been out of the workforce for almost three years, I needed to get back into circulation quickly and in a big way. I have tried all the usual job boards and job search websites, with no real results. I decided to give Weapply4u.com a try. We worked on my resume and cover letter and in a very short time, had a really nice presentation put together. Within a week of that date, I had positive responses from four companies. It feels great to have options when looking for a job. These guys really did do a great job for me. I highly recommend Weapply4u.com to any and all LinkedIn members." - [Gary W., <-- LinkedIn Profile](#)

"I am impressed. I have had more opportunities to meet with senior level executives on totally different fields than I would have contacted in my past methods for career change. I found a great position with a company that is a little out of my normal field of expertise. Thank you" - [Gerry, <-- LinkedIn Profile](#)

"My present employment is a result of Weapply4u.com creative efforts. I would recommend their services for those who are thinking of change in job." - [Rupam B <-- LinkedIn Profile](#)

"Weapply4u.com service produced a burst of activity for me. Several interviews, etc. In the current employers' market it's unusual to find a recruiter who will work with/for the job seeker - but Weapply4u.com does provide a great service for the job seeker. rk" - [Roy Kressin <-- LinkedIn Profile](#)

We offer over 100 Industry packages

## International Jobs and Internships

If you ever wanted to work in New York, London, Paris, Tokyo then consider our international packages. For pennies more you can try to get your dream job or do an international internship. All countries provide visa and incentives for students to do international internship.

Check out our packages and redefine your search to new opportunities : <http://www.weapply4u.com/International.html>

### Apply Directly

Focus your jobs search and accelerate the process by using our unique "DIRECT" application process by applying directly to not only large companies but mid-sized and smaller companies that may be hiring. Every time we send your resume, 2000 people in your industry see your resume.

Most jobsites are full of employment agencies or have requirements for people with extensive experience. Most companies do not publish junior/ intermediate positions on jobsites. In this economic environment very few companies are using agencies. That is why when you apply directly most employers prefer it and you get an opportunity to be considered "DIRECTLY" by the employer.
